- I can't think of any
- Only one weakness.

**What improvements would you like to see in the project?**

- nothing
- A better organization a better division of responsibilities
- Spend more time in the foreign country to get more and more skills ..etc
- a longer journey to know better our correspondents and have more complicity.
- More exchange (by mail and others way of cummunication) with the other countries
- lengthen the project to 2 or 3 years
- Mobilities for students

**General comments**

I would be happy if i joining if project. People can develop theirself weith this project.

That's very interesting. I enjoyed working on a project which also makes us discover a new country and its culture and improve our langages skills

Erasmus + is a great project which i shall remember all my life. I appreciated a lot to discover a country where i shall have had certainly never the opportunity to go without this project there.

this is a good project, this is interesting to see the different cultures in Europe

Thanks for the opportunity to discover others cultures, others students and others friends.

It was a very good experience
